

FIRE SAFETY AWARENESS AND DEMONSTRATION PROGRAMME

School Name: Gyankunj International School, Khargone

Date: 25 August 2026

Venue: School Campus

Participants: Students and Staff

Theme: Fire Safety Awareness and Emergency Preparedness

INTRODUCTION

Gyankunj International School, Khargone organised a Fire Safety Awareness and Demonstration Programme on 25 August 2026 to create awareness among students and staff about fire prevention, safety measures and appropriate action during a fire emergency.

A team from the Fire Brigade Department visited the school and conducted an informative and practical awareness session for the students. The programme aimed to develop awareness, confidence and preparedness among students to respond safely during fire-related emergencies.

PROGRAMME PROCEEDINGS

The Fire Brigade team interacted with the students and explained the common causes of fire and the importance of following safety precautions in school, at home and in public places.

The team explained the appropriate steps to be followed during a fire emergency and demonstrated practical fire safety procedures. Students were also made aware of the importance of remaining calm and following safety instructions during an emergency.

PRACTICAL DEMONSTRATION

The practical demonstration was the main highlight of the programme. The Fire Brigade team demonstrated the correct and safe use of a fire extinguisher and explained the basic procedures to be followed during a fire emergency.

Students were given an opportunity to observe and participate in the practical demonstration under the guidance and supervision of the Fire Brigade team. The team also explained basic evacuation and emergency response measures.

STUDENT PARTICIPATION

Students participated enthusiastically in the awareness session and practical demonstrations. They listened carefully to the instructions provided by the Fire Brigade team and actively participated in the practical activities.

The hands-on demonstration helped students understand fire safety procedures more effectively and increased their confidence and preparedness to respond responsibly during an emergency.

KEY LEARNING OUTCOME

The programme helped students to:

- Understand common causes of fire and ways to prevent fire accidents.
- Learn basic fire safety precautions.

- Understand the correct use of a fire extinguisher.
- Remain calm and follow instructions during an emergency.
- Understand the importance of safe evacuation.
- Develop awareness about emergency preparedness.
- Respond responsibly during fire-related emergencies.

CONCLUSION

The Fire Safety Awareness and Demonstration Programme was informative, practical and beneficial for the students and staff. The visit by the Fire Brigade team provided students with valuable hands-on learning and strengthened their awareness of fire prevention and emergency preparedness.

The school expresses its sincere gratitude to the Fire Brigade team for visiting the school and providing practical demonstrations and valuable guidance to the students.

The programme successfully promoted a culture of safety, awareness and preparedness among the students.
